

ENGINEERING LOGIC PUZZLE!

Amy, Ben, Chris and Danielle all work as different types of Engineer. Using the clues, can you figure out which type of Engineer they are, their favourite thing about their work and which order they started work in? Use the grid below, as well as the table, to help you solve the puzzle.

*Example clue: Amy is not an electronic engineer.
From the clue, we can put a cross in the grid as shown below. You can fill in the grid with crosses and ticks whilst going through the clues.*

	Aerospace Engineer	Mechanical Engineer	Electronic Engineer	Software Engineer	Solving problems	Working in a team	Every day is different	Testing new technology	1st	2nd	3rd	4th
Amy			X									
Ben												
Chris												
Danielle												
1st												
2nd												
3rd												
4th												
Solving problems												
Working in a team												
Everyday is different												
Testing new technology												

CLUES

- The person who is a Software Engineer started work 2nd
